

Three Maps in Baginsberg Parish

With permission from the Hilfskomitee. On page 95 of the 1956 Zeitweiser it states:
"At this time Mr. Schmalenberg is working on maps of our settlements in Galizien, which show besides a layout, a list of the last residents, their sojourn in Warthegau (Poland after resettlement) and their current address. 160 villages have been worked on. This labor is priceless. Furthermore our card file office issues residence certificates which are required for obtaining refugee ID papers." There are three distinct maps, all of villages in the Administrative District of Kolomea, and the Parish of Baginsberg, likely all from about 1939. They are not in the same scale! The crowded Baginsberg map shows the author J. Philipp Schmalenberg, who was one of the Hilfskomitee board members (as per the earlier part of the story). The two smaller villages are NOT contained in the Baginsberg map.

Each map states: Protestant Community
(name of town) Administrative District Kolomea
Parish: Baginsberg
